Mochammad Fadhilah Yanwar Kusumah

IT Project Coordinator | Client & Stakeholder Management | IT
Support | Network Infrastructure | Project Monitoring

Area DKI Jakarta

Ringkasan

IT Professional with 2+ years of experience in project coordination, IT support, and network infrastructure. Currently working as Project Coordinator & IT Support at CV. Wirelesindo, managing project execution, client communication, technical troubleshooting, and cross-functional team coordination. Graduated from Software Engineering (RPL) and currently pursuing a Bachelor's degree in Information Systems at Universitas Bakrie with a GPA of 3.69. Experienced in handling project monitoring, stakeholder coordination, network support, and operational problem-solving. Known for being detail-oriented, adaptable, fast learner, and committed to delivering projects efficiently while maintaining strong communication with clients and technical teams. Interested in opportunities related to IT Project Coordination, IT Operations, IT Support, Network Infrastructure, and Technology Services.

Pengalaman

Wirelesindo 2ND HQ

Project Coordinator & IT Support

November 2023 - Present (2 tahun 9 bulan)

Sidoarjo

Responsible for coordinating project execution, managing client relationships, monitoring project progress, and ensuring successful delivery of IT and network infrastructure projects.

Key Responsibilities & Achievements :

- Acted as the primary liaison between clients, internal teams, and external vendors throughout the project lifecycle.
- Coordinated and monitored more than 10 IT and network infrastructure projects to ensure timely and successful delivery.
- Managed client communications, gathered requirements, provided project updates, and addressed project-related concerns.

- Facilitated collaboration between technical teams and stakeholders to ensure alignment of project objectives and deliverables.
- Monitored project schedules, milestones, and deliverables while proactively identifying and mitigating potential risks.
- Conducted project progress reviews and prepared reports for management and stakeholders.
- Coordinated issue resolution and escalations to maintain project quality and customer satisfaction.
- Provided technical troubleshooting and support for network and infrastructure-related issues.
- Utilized Jira, FortiGate, SQL, Google Workspace, Microsoft Teams, and TP-Link solutions to support project management and operational activities.
- Built and maintained positive client relationships through responsive communication and effective problem-solving.

CV. WIRELESSINDO

Network Technical Support

November 2023 - Present (2 tahun 9 bulan)

Bogor

Key Responsibilities

Monitored and troubleshot SD-WAN network infrastructure to ensure optimal connectivity and service availability.

Installed, configured, and maintained FortiGate devices for SD-WAN implementation across multiple client locations.

Utilized NMS and Zabbix to proactively monitor network performance, device health, and service uptime.

Performed corrective and preventive maintenance to minimize downtime and improve network reliability.

Managed network assets, including routers, switches, and SD-WAN devices, ensuring proper configuration and operational readiness.

Diagnosed and resolved network incidents while coordinating with internal teams and clients.

Supported end-to-end delivery of SD-WAN solutions tailored to client business requirements.

Contributed to improving network performance, operational efficiency, and service continuity.

PT Mitrafor Teknologi Indonesia

Quality Assurance Specialist

Juli 2023 - Oktober 2024 (1 tahun 4 bulan)

Area DKI Jakarta

Responsible for ensuring software quality through manual testing processes and collaboration with development teams to identify and resolve defects.

- Executed manual testing based on business requirements and functional specifications.
- Created, documented, and managed bug reports using Jira.
- Conducted test case execution and validation to ensure application functionality met expected requirements.
- Collaborated with developers and stakeholders to verify issue resolutions.
- Participated in software quality assurance activities throughout the testing lifecycle.
- Contributed to improving product quality by identifying defects before production release.
